Oxygen power from  Switzerland

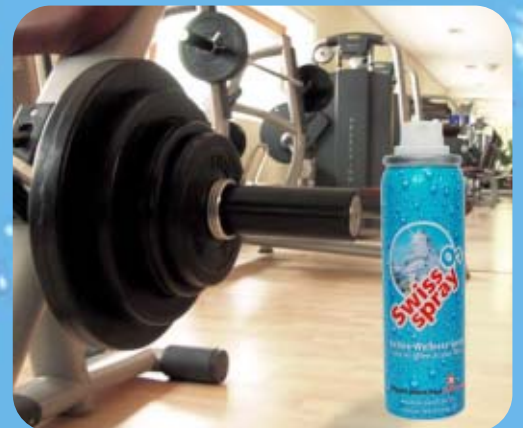

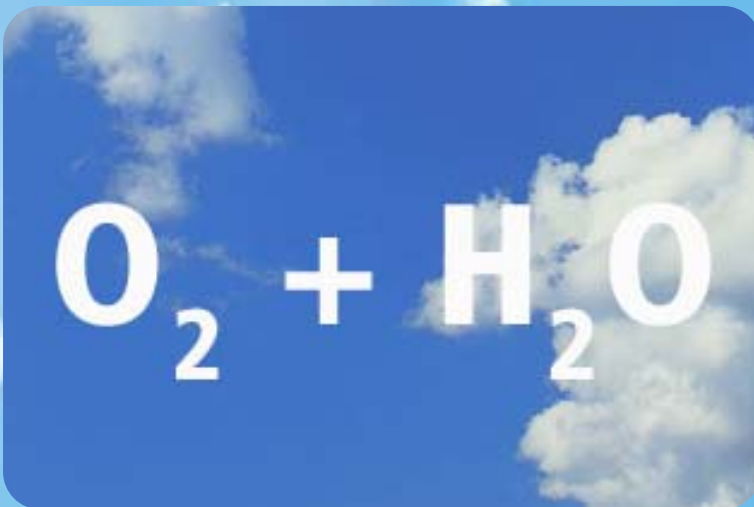

Swiss O₂ Spray | oxygenated-water spray

The vitalizing and refreshing **Swiss O₂ Spray** is the latest product that hits the skin care, health care and wellness market.

This wonderful product is now available to you too!

Swiss O₂ Spray is made of two vital components, **pure oxygen** and **water**. For many years oxygenated-water, has been successfully used for skin care purposes by aestheticians to support skin care treatments. The product has a wide range of applications you can benefit from. It can be used as a moisturizer for skin care or as a vitalizer while travelling by plain or by car or anytime you need to boost your energy reserves.

Swiss O₂ Spray is a pressurized can containing 100% pure oxygenated-water. Swiss O₂ Spray offers between 10 to 20 times more oxygen than normal water, depending of the temperature it is stored.

When sprayed it emits a wonderful fine mist of oxygenated-water. Your Feel Good and wake-up remedy also hydrates and refreshes skin and tissue. Swiss O₂ Spray is of pharmaceutical quality.

Swiss O₂ Spray for your **Beauty, Health and Well-being.**

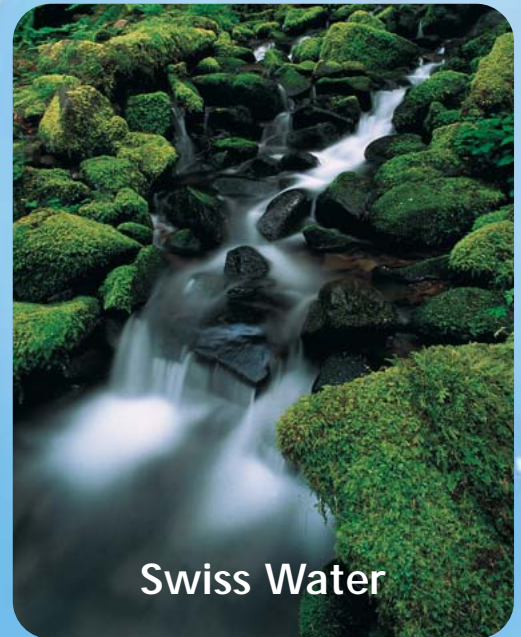

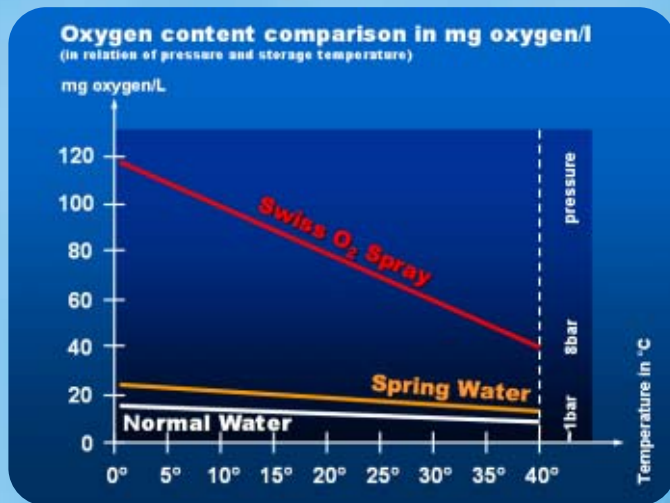

Swiss O₂ Spray | oxygenated-water spray

Chilled **Swiss O₂ Spray** from the fridge (5°C) contains more diluted oxygen than at room temperature:

- up to 120mg oxygen / Liter chilled at 5°C (fridge)
- Min. 45mg oxygen / Liter at 40°C

But even if the can is not cooled the oxygenated-water mist always feels cool and refreshing even at 40° outside temperature.

Swiss Water

Oxygen Mist

Swiss O₂ Spray contains **no preservatives, dyes, perfumes, colours, CFC's or aerosols**. This great new product is completely natural as it contains 100% pure oxygenated water and **the propellant is oxygen!**

Swiss O₂ Spray should be sprayed on, and pat dried with a clean soft cloth, or allowed to air dry. One spray of Swiss O₂ Spray moisturizes and replenishes the natural elements of your skin allowing it to breathe.

The clean, pure vapour from Swiss O₂ Spray will soothe and stimulate your complexion. For a quick alternative to spending the day at a spa. Just have a spray of Swiss O₂ Spray and you'll feel the difference.

Swiss O₂ Spray | oxygenated-water spray

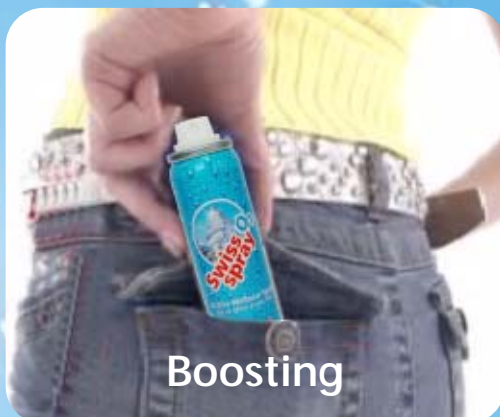

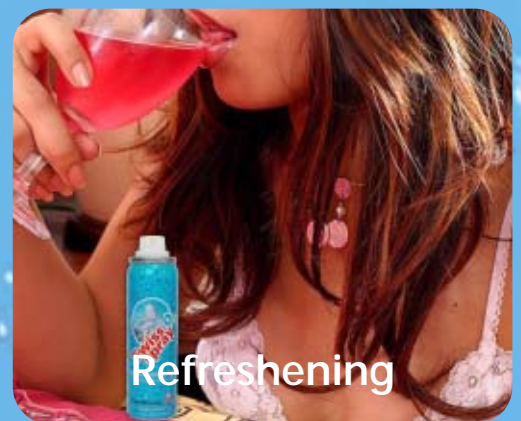

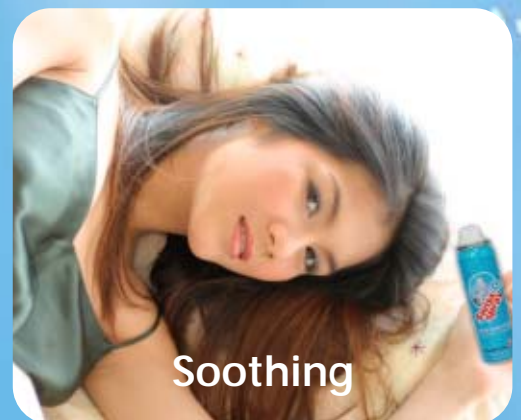

Swiss O₂ Spray is an active wellness spray and can be applied as often as you like per day.

When to use Swiss O₂ Spray:

- Use to moisturize your skin, while spreading its oxygenating powers to skin and tissue - for all skin types
- Use when you have had too much sun or heat. Especially after sunburns!
- Use regularly on trips to refresh yourself and lift your energy
- Use when you feel faint or worn out
- Apply when you are groggy and need a boost
- Use as an effective rejuvenator & activator on your face and body and you'll feel the soothing and refreshing effect immediately

Swiss O₂ Spray is also:

- good for dry to oily skin types
- mild to moderate acne
- great to cool and sooth skin after sunburns
